Key Word Index

Acetyicholinesterase
Hypogastric ganglion; NADPH-diaphorase; Ageing; Tyrosine hydroxylase; Neuropeptide-Y (Warburton, A.L. (45) 155)

Adrenal gland
Sympathetic preganglionic neuron; Sympathetic ganglia; Galanin; Nitric oxide; NADPH diaphorase (Peruzzi, D. (45) 201)

Adrenergic
Iris dilator; Sympathetic; Neuroeffector transmission; Varicosity (Hill, C.E. (45) 107)

Afferent neurons
Nodose ganglion; Dissociated neurons; C-fiber; Microelectrode; Electrophysiology; Vagal; Sensory (Leal-Cardoso, H. (45) 29)

Ageing
Hypogastric ganglion; NADPH-diaphorase; Acetyicholinesterase; Tyrosine hydroxylase; Neuropeptide-Y (Warburton, A.L. (45) 155)

Arterial pressure
Carotid sinus reflex; Conscious animal; Methylatropine (Ohsumi, H. (45) 11)

Forebrain; Central nucleus of the amygdala; Cardiovascular regulation; Limbic system (Roder, S. (45) 61)

Autoregressive spectral analysis
Telemetry; Vasomotor activity; Conscious rat; Blood pressure variability; Heart rate variability; Respiratory activity (Rubini, R. (45) 181)

Axons
Varicosities; Smooth muscle; Vas deferens; Synapses (Lavidis, N.A. (45) 87)

Benzalkonium chloride
Denervation; Mast cell; Small intestine (Osinski, M.A. (45) 164)

Blood pressure variability
Autoregressive spectral analysis; Telemetry; Vasomotor activity; Conscious rat; Heart rate variability; Respiratory activity (Rubini, R. (45) 181)

Burst discharge
Lumbar sympathetic nerve; Hindquarter perfusion; Frequency modulation; Electrical stimulation (Ando, S.-i. (45) 225)

Cardiovascular regulation
Forebrain; Central nucleus of the amygdala; Arterial pressure; Limbic system (Roder, S. (45) 61)

Carotid sinus reflex
Arterial pressure; Conscious animal; Methylatropine (Ohsumi, H. (45) 11)

Cat
Vasodilatation; Lingual nerve; Chorda tympani; Reflex; Lip (Karita, K. (45) 235)

Nucleus raphe magnus; Nucleus raphe pallidus; Wheat germ agglutinin-conjugated horseradish peroxidase (WGA-HRP); Retrofacial nucleus; Medial parabrachial and Kölliker-Fuse (NPBM-KF) nuclear Complex (Gang, S. (45) 241)

Central and arterial chemoreceptor
Gastric motility; Gastric tone; Gastric sympathetic nerve; Gastric vagal nerve; Rat (Kimura, A. (45) 77)

Central nucleus of the amygdala
Forebrain; Arterial pressure; Cardiovascular regulation; Limbic system (Roder, S. (45) 61)

C-fiber
Nodose ganglion; Dissociated neurons; Afferent neurons; Microelectrode; Electrophysiology; Vagal; Sensory (Leal-Cardoso, H. (45) 29)

Cholecystokinin
5-Hydroxytryptamine; Serotonin; Vagal afferent fibre (Blackshaw, L.A. (45) 41)

Chorda tympani
Vasodilatation; Lingual nerve; Reflex; Lip; Cat (Karita, K. (45) 235)

Conscious animal
Arterial pressure; Carotid sinus reflex; Methylatropine (Ohsumi, H. (45) 11)

Conscious rat
Autoregressive spectral analysis; Telemetry; Vasomotor activity; Blood pressure variability; Heart rate variability; Respiratory activity (Rubini, R. (45) 181)

Denervation
Mast cell; Small intestine; Benzalkonium chloride (Osinski, M.A. (45) 164)

Denopamine
Postprandial hypotension; Hemodynamics; Progressive autonomic failure; Midodrine-HCl (Hirayama, M. (45) 149)

Desensitization
Neuropeptide Y; Sympathetic nerve stimulation; Vagus (Moriarty, M. (45) 21)

Dissociated neurons
Nodose ganglion; Afferent neurons; C-fiber; Microelectrode; Electrophysiology; Vagal; Sensory (Leal-Cardoso, H. (45) 29)

Electrical stimulation
Lumbar sympathetic nerve; Hindquarter perfusion; Frequency modulation; Burst discharge (Ando, S.-i. (45) 225)

Electrophysiology
Nodose ganglion; Dissociated neurons; Afferent neurons; C-fiber; Microelectrode; Vagal; Sensory (Leal-Cardoso, H. (45) 29)

Enkephalin
Penis; Plasticity; Sprouting (Minorsky, N.M. (45) 215)

Forebrain
Central nucleus of the amygdala; Arterial pressure; Cardiovascular regulation; Limbic system (Roder, S. (45) 61)

Frequency modulation
Lumbar sympathetic nerve; Hindquarter perfusion; Burst discharge; Electrical stimulation (Ando, S.-i. (45) 225)

Galanin
Sympathetic preganglionic neuron; Sympathetic ganglia; Adrenal gland; Nitric oxide; NADPH diaphorase (Peruzzi, D. (45) 201)

Gastric motility
Gastric tone; Central and arterial chemoreceptor; Gastric sympathetic nerve; Gastric vagal nerve; Rat (Kimura, A. (45) 77)

Gastric sympathetic nerve
Gastric motility; Gastric tone; Central and arterial chemoreceptor; Gastric vagal nerve; Rat (Kimura, A. (45) 77)

Gastric tone
Gastric motility; Central and arterial chemoreceptor; Gastric sympathetic nerve; Gastric vagal nerve; Rat (Kimura, A. (45) 77)

Gastric vagal nerve
Gastric motility; Gastric tone; Central and arterial chemoreceptor; Gastric sympathetic nerve; Rat (Kimura, A. (45) 77)

Gastrointestinal motility
5-Hydroxytryptamine; Vagal afferent fibre (Blackshaw, L.A. (45) 51)

Heart rate variability
Autoregressive spectral analysis; Telemetry; Vasomotor activity; Conscious rat; Blood pressure variability; Respiratory activity (Rubini, R. (45) 181)

Hemodynamics
Postprandial hypotension; Progressive autonomic failure; Denopamine; Midodrine-HCl (Hirayama, M. (45) 149)

Hindquarter perfusion
Lumbar sympathetic nerve; Frequency modulation; Burst discharge; Electrical stimulation (Ando, S.-i. (45) 225)

5-Hydroxytryptamine
Cholecystokinin; Serotonin; Vagal afferent fibre (Blackshaw, L.A. (45) 41)

Vagal afferent fibre; Gastrointestinal motility (Blackshaw, L.A. (45) 51)

Hypogastric ganglion
NADPH-diaphorase; Ageing; Acetyicholinesterase; Tyrosine hydroxylase; Neuropeptide-Y (Warburton, A.L. (45) 155)

Iris dilator
Adrenergic; Sympathetic; Neuroeffector transmission; Varicosity (Hill, C.E. (45) 107)

Kidney
Transitory nerves; Noradrenergic; Peptidergic; (Cat) (Knight, D.S. (45) 125)

Laser-Doppler flowmetry
Vasomotor fluctuation; Mayer wave sympathetic nerve; Powerspectral analysis (Kano, T. (45) 191)

Limbic system
Forebrain; Central nucleus of the amygdala; Arterial pressure; Cardiovascular regulation (Roder, S. (45) 61)

Lingual nerve
Vasodilatation; Chorda tympani; Reflex; Lip; Cat (Karita, K. (45) 235)

Lip
Vasodilatation; Lingual nerve; Chorda tympani; Reflex; Cat (Karita, K. (45) 235)

Lower body negative pressure
Opioid receptor; Sympathetic activity (Smith, M.L. (45) 1)

Lumbar sympathetic nerve
Hindquarter perfusion; Frequency modulation; Burst discharge; Electrical stimulation (Ando, S.-i. (45) 225)

Mast cell
Denervation; Small intestine; Benzalkonium chloride (Osinski, M.A. (45) 164)

Mayer wave sympathetic nerve
Laser-Doppler flowmetry; Vasomotor fluctuation; Powerspectral analysis (Kano, T. (45) 191)

Medial parabrachial and Kölliker-Fuse (NPBM-KF) nuclear Complex
Nucleus raphe magnus; Nucleus raphe pallidus; Wheat germ agglutinin-conjugated horseradish peroxidase (WGA-HRP); Retrofacial nucleus; Cat (Gang, S. (45) 241)

Methylatropine
Arterial pressure; Carotid sinus reflex; Conscious animal (Ohsumi, H. (45) 11)

Microelectrode
Nodose ganglion; Dissociated neurons; Afferent neurons; C-fiber; Electrophysiology; Vagal; Sensory (Leal-Cardoso, H. (45) 29)

Micturitional disturbance
Progressive supranuclear palsy; Steele-Richardson-Olszewski syndrome; Urodynamic study (Sakakibara, R. (45) 101)

Midodrine-HCl
Postprandial hypotension; Hemodynamics; Progressive autonomic failure; Denopamine (Hirayama, M. (45) 149)

NADPH-diaphorase
Hypogastric ganglion; Ageing; Acetyicholinesterase; Tyrosine hydroxylase; Neuropeptide-Y (Warburton, A.L. (45) 155)

NADPH diaphorase
Sympathetic preganglionic neuron; Sympathetic ganglia; Galanin; Adrenal gland; Nitric oxide (Peruzzi, D. (45) 201)

Neuroeffector transmission
Adrenergic; Iris dilator; Sympathetic; Varicosity (Hill, C.E. (45) 107)

Neuropeptide Y
Desensitization; Sympathetic nerve stimulation; Vagus (Moriarty, M. (45) 21)

Neuropeptide-Y
Hypogastric ganglion; NADPH-diaphorase; Ageing; Acetyicholinesterase; Tyrosine hydroxylase (Warburton, A.L. (45) 155)

Neurosecretory cell
Parabrachial nucleus; Supraoptic nucleus; Vasopressin (Day, T.A. (45) 175)

Nitric oxide
Sympathetic preganglionic neuron; Sympathetic ganglia; Galanin; Adrenal gland; NADPH diaphorase (Peruzzi, D. (45) 201)

Nodose ganglion
Dissociated neurons; Afferent neurons; C-fiber; Microelectrode; Electrophysiology; Vagal; Sensory (Leal-Cardoso, H. (45) 29)

Noradrenergic
Transitory nerves; Peptidergic; Kidney; (Cat) (Knight, D.S. (45) 125)

Nucleus raphe magnus
Nucleus raphe pallidus; Wheat germ agglutinin-conjugated horseradish peroxidase (WGA-HRP); Retrofacial nucleus; Medial parabrachial and Kölliker-Fuse (NPBM-KF) nuclear Complex; Cat (Gang, S. (45) 241)

Nucleus raphe pallidus
Nucleus raphe magnus; Wheat germ agglutinin-conjugated horseradish peroxidase (WGA-HRP); Retrofacial nucleus; Medial parabrachial and Kölliker-Fuse (NPBM-KF) nuclear Complex; Cat (Gang, S. (45) 241)

Number of activated fibers
T1–T5 thoracic rami; Peak amplitude; Width; Periodicity of synchronized cardiac sympathetic nerve activity; Peak detection algorithm (Ninomiya, I. (45) 139)

Opioid receptor
Lower body negative pressure; Sympathetic activity (Smith, M.L. (45) 1)

Parabrachial nucleus
Supraoptic nucleus; Neurosecretory cell; Vasopressin (Day, T.A. (45) 175)

Peak amplitude
T1–T5 thoracic rami; Width; Periodicity of synchronized cardiac sympathetic nerve activity; Peak detection algorithm; Number of activated fibers (Ninomiya, I. (45) 139)

Peak detection algorithm
T1–T5 thoracic rami; Peak amplitude; Width; Periodicity of synchronized cardiac sympathetic nerve activity; Number of activated fibers (Ninomiya, I. (45) 139)

Penis
Enkephalin; Plasticity; Sprouting (Minorsky, N.M. (45) 215)

Peptidergic
Transitory nerves; Noradrenergic; Kidney; (Cat) (Knight, D.S. (45) 125)

Periodicity of synchronized cardiac sympathetic nerve activity
T1–T5 thoracic rami; Peak amplitude; Width; Peak detection algorithm; Number of activated fibers (Ninomiya, I. (45) 139)

Plasticity
Enkephalin; Penis; Sprouting (Minorsky, N.M. (45) 215)

Postprandial hypotension
Hemodynamics; Progressive autonomic failure; Denopamine; Midodrine-HCl (Hirayama, M. (45) 149)

Powerspectral analysis
Laser-Doppler flowmetry; Vasomotor fluctuation; Mayer wave sympathetic nerve (Kano, T. (45) 191)

Progressive autonomic failure
Postprandial hypotension; Hemodynamics; Denopamine; Midodrine-HCl (Hirayama, M. (45) 149)

Progressive supranuclear palsy
Steele-Richardson-Olszewski syndrome; Micturitional disturbance; Urodynamic study (Sakakibara, R. (45) 101)

Rat
Gastric motility; Gastric tone; Central and arterial chemoreceptor; Gastric sympathetic nerve; Gastric vagal nerve (Kimura, A. (45) 77)

Reflex
Vasodilatation; Lingual nerve; Chorda tympani; Lip; Cat (Karita, K. (45) 235)

Respiratory activity
Autoregressive spectral analysis; Telemetry; Vasomotor activity; Conscious rat; Blood pressure variability; Heart rate variability (Rubini, R. (45) 181)

Retrofacial nucleus
Nucleus raphe magnus; Nucleus raphe pallidus; Wheat germ agglutinin-conjugated horseradish peroxidase (WGA-HRP); Medial parabrachial and Kölliker-Fuse (NPBM-KF) nuclear Complex; Cat (Gang, S. (45) 241)

Sensory
Nodose ganglion; Dissociated neurons; Afferent neurons; C-fiber; Microelectrode; Electrophysiology; Vagal (Leal-Cardoso, H. (45) 29)

Serotonin
5-Hydroxytryptamine; Cholecystokinin; Vagal afferent fibre (Blackshaw, L.A. (45) 41)

Small intestine
Denervation; Mast cell; Benzalkonium chloride (Osinski, M.A. (45) 164)

Smooth muscle
Varicosities; Vas deferens; Axons; Synapses (Lavidis, N.A. (45) 87)

Sprouting
Enkephalin; Penis; Plasticity (Minorsky, N.M. (45) 215)

Steele-Richardson-Olszewski syndrome
Progressive supranuclear palsy; Micturitional disturbance; Urodynamic study (Sakakibara, R. (45) 101)

Supraoptic nucleus
Parabrachial nucleus; Neurosecretory cell; Vasopressin (Day, T.A. (45) 175)

Sympathetic
Adrenergic; Iris dilator; Neuroeffector transmission; Varicosity (Hill, C.E. (45) 107)

Sympathetic activity
Lower body negative pressure; Opioid receptor (Smith, M.L. (45) 1)

Sympathetic ganglia
Sympathetic preganglionic neuron; Galanin; Adrenal gland; Nitric oxide; NADPH diaphorase (Peruzzi, D. (45) 201)

Sympathetic nerve stimulation
Desensitization; Neuropeptide Y; Vagus (Moriarty, M. (45) 21)

Sympathetic preganglionic neuron
Sympathetic ganglia; Galanin; Adrenal gland; Nitric oxide; NADPH diaphorase (Peruzzi, D. (45) 201)

Synapses
Varicosities; Smooth muscle; Vas deferens; Axons (Lavidis, N.A. (45) 87)

Telemetry
Autoregressive spectral analysis; Vasomotor activity; Conscious rat; Blood pressure variability; Heart rate variability; Respiratory activity (Rubini, R. (45) 181)

Transitory nerves
Noradrenergic; Peptidergic; Kidney; (Cat) (Knight, D.S. (45) 125)

T1–T5 thoracic rami
Peak amplitude; Width; Periodicity of synchronized cardiac sympathetic nerve activity; Peak detection algorithm; Number of activated fibers (Ninomiya, I. (45) 139)

Tyrosine hydroxylase
Hypogastric ganglion; NADPH-diaphorase; Ageing; Acetyicholinesterase; Neuropeptide-Y (Warburton, A.L. (45) 155)

Urodynamic study
Progressive supranuclear palsy; Steele-Richardson-Olszewski syndrome; Micturitional disturbance (Sakakibara, R. (45) 101)

Vagal
Nodose ganglion; Dissociated neurons; Afferent neurons; C-fiber; Microelectrode; Electrophysiology; Sensory (Leal-Cardoso, H. (45) 29)

Vagal afferent fibre
5-Hydroxytryptamine; Cholecystokinin; Serotonin (Blackshaw, L.A. (45) 41)

5-Hydroxytryptamine; Gastrointestinal motility (Blackshaw, L.A. (45) 51)

Vagus
Desensitization; Neuropeptide Y; Sympathetic nerve stimulation (Moriarty, M. (45) 21)

Varicosities
Smooth muscle; Vas deferens; Axons; Synapses (Lavidis, N.A. (45) 87)

Varicosity
Adrenergic; Iris dilator; Sympathetic; Neuroeffector transmission (Hill, C.E. (45) 107)

Vas deferens
Varicosities; Smooth muscle; Axons; Synapses (Lavidis, N.A. (45) 87)

Vasodilatation
Lingual nerve; Chorda tympani; Reflex; Lip; Cat (Karita, K. (45) 235)

Vasomotor activity
Autoregressive spectral analysis; Telemetry; Conscious rat; Blood pressure variability; Heart rate variability; Respiratory activity (Rubini, R. (45) 181)

Vasomotor fluctuation
Laser-Doppler flowmetry; Mayer wave sympathetic nerve; Powerspectral analysis (Kano, T. (45) 191)

Vasopressin
Parabrachial nucleus; Supraoptic nucleus; Neurosecretory cell (Day, T.A. (45) 175)

Wheat germ agglutinin-conjugated horseradish peroxidase (WGA-HRP)
Nucleus raphe magnus; Nucleus raphe pallidus; Retrofacial nucleus; Medial parabrachial and Kölliker-Fuse (NPBM-KF) nuclear Complex; Cat (Gang, S. (45) 241)

Width
T1–T5 thoracic rami; Peak amplitude; Periodicity of synchronized cardiac sympathetic nerve activity; Peak detection algorithm; Number of activated fibers (Ninomiya, I. (45) 139)
